The Dart Women of the West league has been created to qualify women to participate in the ADO National Qualifier held in Region 2-5. When a woman qualifies through the DWOW league and would like to use those funds towards a different national qualifier, we will allow that as long as that national qualifier occurs on or before the date of the Region 2-5 qualifier for that session. Otherwise the money will roll over to the next woman on the list.

As of January 1, 2025, the entry fee for ADO National Qualifiers will be \$75. To start 2025, DWOW will keep our entry fees at \$35, however that means slightly fewer players will qualify to advance. We will collect input from players about raising the entry fee to \$40 in order to advance more players and make an announcement if that changes.

For each session A Division will play 2 matches per week. B and C Division will play 1 match per week. In our experience the B and C division matches last longer and have had more difficulty in setting up matches.
